# ADEC Response Exercise Program Improvements Process

---

## Guiding Principles

- Verify compliance with statutes and regulations in regard to operators' ability to adequately respond to a spill.
- Maintain or improve current levels of response readiness.
- Encourage innovation and improvement.
- Maintain consistency statewide.
- Strengthen and broaden oil spill response capability and coordination throughout the response community.
- Increase the value of response exercises for the entire response community.
- Increase cost effectiveness of response exercises for the department and industry.
